## PAST PERFORMANCE

MCG consistently strives to exceed customer expectations through the delivery of superior service and innovative solutions. Our extensive experience spans multiple sectors, including acquisition, procurement, logistics, and information technology, serving various departments and federal agencies. We are proud of our track record in providing information technology, telecommunications engineering, acquisition and management consulting solutions for the **MedStar Health** and **Technology Services Corporation**, where we supported a major healthcare provider and Department of Defense program offices. Our work has directly benefited the **Army** and the **Special Operations Command**, highlighting our versatility and adaptability to varied operational environments. MCG's leadership brings a wealth of experience from previous roles with the **Defense Contracting Management Agency**, **Washington Headquarters Services**, and the **Army Materiel Command** LOGCAP program. This wealth of experience further fortifies our ability to understand the unique needs of our clients and to deliver tailored, effective solutions.
